# **Reliable Results Made Easy**

## **Solutions to Fit Your Process**

Whether you are looking to standardize chemical indicators (CIs) for inventory and training purposes, or prefer the assurance only cycle-specific CIs provide, STERIS offers a broad portfolio that can meet your needs.

### Simplify Solutions

Simplify your process with **VERIFY® STEAM Type 5 Integrating Indicators.** These CI strips can be used in a variety of cycles and the moving front indicator **removes guesswork** in interpretation while **promoting operational efficiencies.** 

# Monitors Critical Parameters

**STEAM** 

TIME

#### **VERIFY® STEAM** Integrating Indicator

- Four-inch length provides versatility and easy retrieval
- Dual window makes the CI easy to read

### **VERIFY® STEAM** Integrating Indicator 5CM

- Compact design fits where other chemical indicators cannot
- Easy to read with clearly displayed pass and fail results

# The Power of Precision

For a complete measurement of cycle-specific parameters, try STERIS Type 6 Emulating Indicators.

- Engineered to precisely monitor pre-vacuum and gravity cycles
- Designed for easy and distinct interpretation, these solutions incorporate moving front or Intelligent Ink Technology calibrated to specific cycle parameters

#### Celerity 10™ STEAM Chemical Indicator

Validated for extended 10-minute cycles

# Type 5 and

**Compliance** 

Type 6 chemical indicators conform with ANSI/AAMI/ISO 11140-1

#### VERIFY™ SixCess™ MF4 STEAM **Emulating Indicator**

 For commonly used prevacuum 270°F/132°C, 4-minute cycles

 Easy-to-interpret moving front indicator

#### **VERIFY™ SixCess Extended** Timing Challenge Pack

 Validated for multiple exposure times

**Total Sterility Assurance** 

**Solutions** 

#### Celerity<sup>™</sup> 20 STEAM **Biological Indicators**

Experience fast results from a 20-minute read BI used for routine monitoring, qualification testing, load monitoring.

#### Celerity<sup>™</sup> 20 STEAM **Process Challenge Device**

The Celerity 20 STEAM PCD is validated for both dynamic air removal and gravity cycles.

#### **VERIFY®** Bowie Dick **Test Pack**

Easy-to-use, easy to interpret allin-one test packs make air removal testing and verification simple.
